

OR300-7-8 ATTACHMENT A

**PRODUCER ACKNOWLEDGEMENT OF 2007 EQIP WILDFIRE SPECIAL INITIATIVE
REQUIREMENTS AS OUTLINED IN OR300-7-8**

Operator/Farm Name _____

County _____ EQIP Application # _____

I certify that I have sustained wildfire damage on the acres as listed below. I will work with NRCS to delineate my grazing operation as well as the burned areas of my grazing operation.

Tract #	Field #	Total Private Grazing Land Acres	Total Burned Private Grazing Land Acres	Burned Grazing Land Acres to be Deferred

I understand that it is my responsibility to provide NRCS with all records necessary to verify the wildfire damage if requested. I acknowledge that immediately following the wildfire I must begin deferring all livestock grazing on acres that I wish to enroll in the 2007 EQIP Wildfire Special Initiative and that I must continue to defer grazing through the spring of 2010. I understand that the purpose of the initiative incentive payment is for NRCS to provide financial assistance for me to defer grazing and reseed grazing lands that were destroyed by the wildfire. I understand that failure to comply with any initiative requirement will cause me to forfeit all eligibility for the program regardless of the status of my EQIP application, and if my application has been converted to an EQIP contract, I will owe to NRCS a reimbursement of any funds that I have received through this initiative. I understand that NRCS has in no way guaranteed that I will receive funding. I further understand that my participation in this initiative will limit my ability to participate in the Emergency Conservation Program (ECP) and that I should consult with the Farm Services Agency (FSA) for more information.

My signature below indicates that I have read and understand, or had explained to me, all requirements referenced within this document and the Oregon bulletin OR300-7-8.
