

WATER QUALITY initiative

protect your way of life.

Technical and Financial Assistance Available

You may be eligible to receive technical and financial assistance from USDA's Natural Resources Conservation Service to improve water quality on your land through the Environmental Quality Incentives Program Water Quality Initiative. Assistance is available in the Poison Creek – Willow Creek and Little Willow Creek area to help you implement the following conservation activities to improve water quality on your land:

- Nutrient Management Systems
- Erosion control
- Conservation tillage
- Irrigation Water Management
- And much more...!

Contact your local NRCS field office to learn more about how NRCS can help you improve water quality.

www.or.nrcs.usda.gov

Deadline

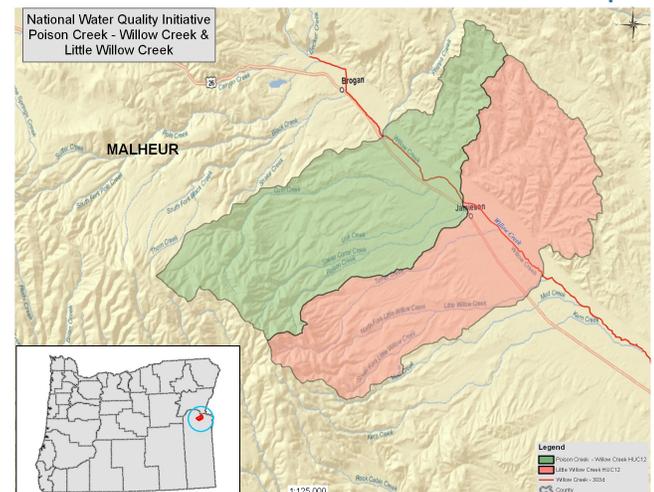

May 18: High priority applications will be ranked and preapproved for funding.

June 15: High or Medium priority applications will be ranked and preapproved for funding.
