
MATERIAL SPECIFICATION
MS-OR-535 PREFORMED EXPANSION JOINT FILLER

535.1 SCOPE

This specification covers the quality of preformed expansion joint fillers for concrete.

535.2 QUALITY

Preformed expansion joint filler shall conform to the requirements of ASTM Specification D 1752, Type I, Type II, or Type III, unless bituminous type is specified. Bituminous type preformed expansion joint filler shall conform to the requirements of ASTM Specification D 994, or D 1751.
