

**1997 Irrigated Acreage Estimates vs Total Acreage Estimates
by Land Cover/Use
for the John Day River Basin - 170702**

Oregon National Resources Inventory Results
Estimated for Non-Federal Lands Only

	Irrigated Acreage Estimates	Irrigated Acreage Error	Non-Irrigated Acreage Estimates	Non-Irrigated Acreage Error	Total Acreage Estimates	Total Acreage Error	Percent of Acreage that is Irrigated
Cultivated Cropland	0	0	244,200	25,400	244,200	25,400	0%
Non-Cultivated Cropland	37,700	7,000	21,500	10,800	59,200	12,300	64%
Pasture	12,100	6,900	39,700	11,400	51,800	16,400	23%
Total	49,800	10,100	305,400	26,900	355,200	29,400	14%

NOTE: Data may not add to totals because of rounding. The error referred to in the table is the standard error of the estimate. You can obtain the margin of error at the 95% confidence limit by multiplying the error by 1.96. Standard errors greater than 50% of the estimate indicate a low level of statistical reliability.
